U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On SEPTEMBER 19, 1976
 - Export shipments in
Current Marketing Year
 - Daily Sales reported
SEPTEMBER 20-28, 1976
- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

COMMENTS PREPARED BY THE OFFICE OF THE GENERAL SALES MANAGER

EXPORT SALES REPORT

Comments on release of September 30, 1976 (based on reports from exporters for the week ending September 19, unless otherwise noted):

Wheat: Activity was up from the preceding week as total sales increased by 453,300 MT (metric tons). Significant buyers were the European Community--83,000 MT; Poland--50,800 MT; Sudan--25,400 MT and Tunisia--30,000 MT of Durum. Korea purchased 103,700 MT as reported last week under the daily sales. 40,600 MT of Hard Red Winter was also switched from unknown destinations to Pakistan. Weekly sales included 134,100 MT of optional origin Soft Red to Poland. Export clearances continued at a reasonable rate with more than 711,600 MT exported.

Corn: Sales activity slowed for old crop corn as foreign buyers switched attention to 1976/77 purchases. A correction in previous reports for 1975/76 shows a switch of a 50,000 MT sale, which had earlier been reported to the USSR, to Czechoslovakia. 100,000 MT was also switched from unknown destination to **Belgium**. Sales for the 1976/77 MY continued modest, rising by over 535,000 MT. Western Europe and Japan were the major markets with the Netherlands, Greece and Japan each accounting for more than 100,000.

Grain Sorghum: Sales activity continued moderately heavy with interest about evenly split between old and new crop. Export movement continued good suggesting that the 1975/76 export projection of over 5.7 million MT will be easily reached. The level of new crop sales, currently totalling over 800,000 MT, is running somewhat ahead of the pace a year ago.

Cotton: Sales volume picked up from last week but is still light with only 69,600 R.B. reported for MY 1976/77. Korea, Japan, India and Canada were the largest buyers. Weekly exports of 109,800 R.B. were the second heaviest since August 1975.

Soybeans: Japan accounted for about 61% of the weekly exports, with the EC, Taiwan and Canada the other recipients. Exports to date are running about 20,000 MT ahead of a year ago. Total sales increased by 530,500 MT due primarily to purchases by the EC and Japan.

Soybean Oil Cake and Meal: The EC, Poland and Spain were the principal takers for the week as exports for the 1975/76 MY reached the USDA export projection. The exports to Poland were made under the CCC Credit Program. A small increase in total sales was made mostly to the EC, Spain and Canada.

Soybean Oil: Weekly exports were nil. Pakistan received an extension to November 30, 1976 for shipment of about 40,000 MT of soybean oil purchased under CCC Credit. This was due to be exported during the 1975/76 marketing year. Also, about 36,000 MT of oil destined for Iran is encountering shipping problems in the Gulf and may not be exported during the 1975/76 marketing year. With about two weeks remaining in the year, accumulated exports are approximately 35,000 MT short of the USDA projection.

Barley, Oats, and Rice: Showed no significant activity.
